**CONDOMINIUM / MULTI RESIDENTIAL
HOSPITALITY LIGHTING CATALOGUE**

At GS Lighting Group we strive to partner with Lighting Manufactures that work closely with developers and specifiers in the residential sector to understand current design trends and cost models that can apply light fixture design to a high-end applications or to meet the most economic requirements.

Our manufactures are ; Canadian, USA, European and Asian. The products range from the Kitchen pendant to the bathroom vanity. The base building fixtures are also part of our portfolio along with decorative exterior, building lighting including RGBW and of course any exterior site lights from post tops to low voltage landscape.

Whether it is a 90-rise condominium project , apartment building, retirement home or a housing subdivision we have lighting partners that bring solutions to this complex market.

Our in-house lighting specialist support our design community of Architects, Engineers and Interior designers in providing lighting design solutions, photometric support, outdoor designs with full cutoff , and budgetary support to make all selections transparent and a project management team behind the scenes managing your deliveries, site issues and completion of the supply process.

Our GS Lighting Team looks forward to meeting with you to work through the design selection, budget planning and project management of your lighting procurement.

Please contact one of our knowledgeable Salespeople today.

CONDOMINIUM / MULTI RESIDENTIAL HOSPITALITY LIGHTING CATALOGUE - RECESSED DOWNLIGHTS

SMALL APERTURE DOWNLIGHTS SPEC & CONTRACTOR GRADE DOWNLIGHT COLLECTION

Volta

- Architectural grade illumination
- Compatible with intuitive field interchangeable accessories
- Available trim and finish options include wall wash and 0° - 45° adjustable

AETHER

- Super low profile, designed to fit in tight plenum spaces
- Vertical and horizontal adjustable
- Round or square and trim or trimless options available for new construction or remodel

OCULAR 3.5

- Clean, efficient, versatile design works with almost any decor
- Available with 0°-30° adjustability
- Round or square open reflector and trimless options available

LOW VOLTAGE DOWNLIGHTS

- Available in 2.5" and 4" sizes
- Choose from round or square trim
- Available options include adjustability, LED lamping and accessory compatibility

OCULARC

- Optional dim-to-warm capability
- Available with 0°-35° adjustability
- Choose from round or square open reflector and available lumen output options

LEDME

- Smooth and continuous ELV dimming
- 35° narrow flood beam spread
- 350° horizontal rotation

LOTOS

- Shallow profile LED
- 360° retractable pivot: downlight and adjustable
- Available in 4" or 6" recessed

POP-IN/ION/BLAZE

- Perfect for remodel or new construction residential applications
- Integral driver
- Electrical wiring box directly on the back of fixture

LF Series

SQUARE AND ROUND SHAPE OPTIONS

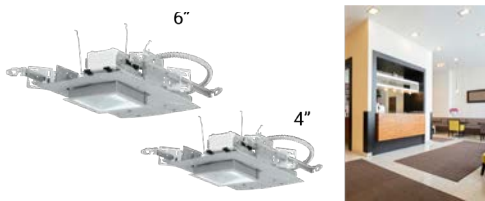

Choose the shape that fits the aesthetic of the space without sacrificing quality. Both square and round offer the exceptional performance desired, so every space can be tied together top to bottom and illuminated perfectly.

APERTURE OPTIONS IN ROUND AND SQUARE

Our squares are offered in both 4" and 6" apertures with up to a 3000 Lumen LED module.

FINISH OPTIONS

Prescolite includes a wide variety of finish options, from Specular, which creates a crisp quiet ceiling plane, to Softsheen™ and Softglow®, which enhance the aesthetic of the ceiling plane.

CONE COLOR OPTIONS

We offer an array of anodized and painted cone colors that, with our finish options, will enhance the tone and color within your space.

CONDOMINIUM / MULTI RESIDENTIAL HOSPITALITY LIGHTING CATALOGUE - BASE BUILDING & COMMON AREAS SITE LIGHTING

At GS Lighting Group we bring leading edge design with controlled optics to the residential/hospitality sector. Our product offerings will satisfy any traditional or contemporary aesthetic, while providing responsible lighting design. Our design team will ensure that we are sensitive to safety, Light trespass, 0 cutoff where required and energy efficient design to achieve all criteria on your site. Our lighting professionals can assist in photometric calculations, with 3D renderings to provide the point-by-point calculations on light distribution with the illustration of light control around buildings. Bringing the technology of lighting control can be part of the exterior lighting design. Whether it is a motion sensor or scheduling the nighttime illumination of your site we can incorporate wired or wireless controls to the lighting plan.
